

# Paper Session Schedule

---

## Friday September 10 Paper Session I, Windsor Hall 1:15 pm-5:30 pm

1:15	John Alexander and Jay Withgott	Opening Remarks
1:30	Keith Robillard and Michael T. Murphy	Influence of age, weather, and body size on reproduction of Tree Swallows in the Willamette Valley, Oregon.
1:45	Peg Boulay et al.	A birder's field guide to Oregon's comprehensive Wildlife Conservation Strategy and Bird Conservation Initiatives
2:00	Stu Farber and Rob Hewitt	Bioforestry: Measuring response of song birds to retention of forest stand structures on Timber Products Company forestlands in interior Northern California.
2:15	John Alexander et al.	Quantifying the effects of wildfire on birds: A before and after comparison from the Quartz Fire in southern Oregon
<b>2:30</b>	<b>Break</b>	
2:45	William Bousman	A comparison of levels of birding effort over the past century
3:00	Buzz Hull, and A.M. Fish	A study of juvenile Red-tailed Hawk ( <i>Buteo Jamaicensis</i> ) movement through the Marin Headlands, California, in autumn and winter
3:15	Gina Barton and Sherri Hudson	Migratory patterns during spring and fall at a long-term bird banding station in California.
3:30	Melissa Pitkin	Mist-netting with the public- Encouraging public participation in mist-netting demonstrations
3:45	Walter Sakai et al.	Are black mist nets really better than other-colored mist nets?
<b>4:00</b>	<b>Break</b>	
4:15	James Tietz and Mathew Johnson	Stopover-habitat ecology of the Swainson's Thrush in northwestern California
4:30	Monica Tomosy	New perspectives from the bird banding laboratory
4:45	John Pollinger et al.	Linking breeding and over-wintering areas for five Neotropical migrant passerines using genetic markers
5:00	Dawn Garcia and Jaime Acker	Results of an on-going Barred Owl ( <i>Strix Varia</i> ) study on Bainbridge Island, Washington.
5:15	Steven A. Goodwin	Great Gray Owl habitat use and seasonal movement analysis via radio-telemetry, vegetation measurement, and genetic analysis

# Paper Session Schedule
